Aims and Scope

The *Journal of African Earth Sciences* (*and the Middle East*) is an international interdisciplinary journal devoted to all aspects of research related to the African continent and neighbouring regions. Papers incorporating the results of research on regional geology of the African cratons and mobile belts, economic geology, geophysics, structure, Quaternary geology and analysis of sedimentary basins are featured.

Submission of papers for publication is welcomed. Contributors should send three copies of completed manuscripts to the Editor-in-Chief or any of the Editorial Board.

In addition the journal will include book reviews, short notes and selected papers from the proceedings of conferences, symposia and workshops on any aspect of African geology and related subjects.

Publishing and Advertising Offices. Elsevier Science Ltd, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, U.K. Tel. (0865) 794141.
